

Registration & Accreditation

Tuition includes all educational sessions, course syllabus, and refreshments the day of the course. You will receive written confirmation of your registration. To receive Category 1 credit, providers are required to attest to how many hours they were actually present at the given activity by completing a Verification of Hours form provided by the CME office. Failure to return this form will result in denial of credit for that activity.

Group Health Cooperative is accredited by the Washington State Medical Association CME Accreditation Committee to sponsor continuing medical education activities for physicians. Group Health Cooperative designates this educational activity for a maximum of **7.0 hours in Category 1** to satisfy the re-licensure requirements of the Washington State Medical Quality Assurance Commission. Group Health Cooperative designates this educational activity for a maximum of **7.0 AMA PRA Category 1 Credit(s)**[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Group Health Cooperative requires that faculty participating in a GHC CME activity disclose to the audience any relationship with a commercial interest that might pose a potential, apparent, or real conflict of interest with regard to that faculty member's contribution to the program.

Gastroenterology for Primary Care

Thursday, Jan. 14, 2010
Cedarbrook Conference Center
SeaTac, Wash.

About the Course

This course is designed to address the wide range of clinical topics associated with the care of patients with gastroenterological conditions. Attendees will receive clinical updates and useful management strategies for commonly seen conditions. Course content will be clinically-oriented, informal, and interactive, with illustrative case presentations and opportunities for questions and comments.

At the end of the conference, attendees will be able to:

- Apply into daily practice current information on evaluation and management of hepatitis B and C.
- Articulate current guidelines for colorectal cancer screening.
- Summarize current theories of pathogenesis, diagnostic tests, and treatments for inflammatory bowel disease.
- Utilize the latest approaches and strategies for caring for elderly patients with gastrointestinal problems.
- Describe basic endoscopic ultrasound techniques and indications.
- Implement tools and techniques to effectively manage patients with irritable bowel syndrome.
- Discuss the diagnosis and treatment for nausea and vomiting.
- Recognize when tests for celiac sprue are necessary and explain the process to their patients.
