

Registration & Accreditation

Tuition includes all educational sessions, course syllabus, and refreshments the day of the course. You will receive written confirmation of your registration. To receive Category 1 credit, providers are required to attest to how many hours they were actually present at the given activity by completing a Verification of Hours form provided by the CME office. Failure to return this form will result in denial of credit for that activity.

Group Health Cooperative is accredited by the Washington State Medical Association CME Accreditation Committee to sponsor continuing medical education activities for physicians. Group Health Cooperative designates this educational activity for a maximum of **7.25 hours in Category 1** to satisfy the re-licensure requirements of the Washington State Medical Quality Assurance Commission. Group Health Cooperative designates this educational activity for a maximum of **7.25 AMA PRA Category 1 Credit(s)**[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Group Health Cooperative requires that faculty participating in a GHC CME activity disclose to the audience any relationship with a commercial interest that might pose a potential, apparent, or real conflict of interest with regard to that faculty member's contribution to the program.

Clinical Pearls for Primary Care

Friday, March 26, 2010

Cedarbrook Lodge
SeaTac, Wash.

About the Course

This course is designed to address a wide range of clinical topics for primary care clinicians. It explores issues of managing chronic pain, creating a sustainable practice, and managing abnormal EKGs, among others. Lecture format and case presentations will provide attendees with take-home strategies for improved patient care.

Course Objectives

At the end of the conference, attendees will be able to:

- Identify ways to improve the sustainability of their practice and enhance the quality of their patient interactions.
- Recognize what is manageable about chronic non-malignant pain and what is not.
- Interpret common EKG findings and review subsequent management.
- Enhance communications with the families and caregivers of patients with dementia.
- Describe the pathophysiology, diagnosis, and treatment approaches for patients suffering from COPD.
- Discuss alternative strategies to ordering CT/MRI scans.
- Explain the diagnosis and management of heart failure.
- Synthesize a variety of tools to make EPIC more useful.

GroupHealth[®] Continuing Medical Education

Faculty

Lee Amsler, MD, FACC

Cardiology, Capitol Hill Specialty Services
Group Health Permanente
